## AUDITOR'S REPORT

I hereby certify that I have examined the accounts of the Bethlehem School District and find them correctly cast and properly vouched with a balance in the treasury of \$1,399.90.

A. E. WHYTE, Auditor.

Bethlehem, June 30, 1925.

## SUPERINTENDENT'S REPORT

---

To the School Board of Bethlehem:

The annual report of the schools of Bethlehem for the school year July 1, 1924 to and including June 30, 1925 is respectfully submitted.

The story gets a trifle cold before it is read. For it must ever be borne in mind that the year that is reported is the completed school year or the one that closed in June, preceding the printing of the town report.

### SCHOOL YEAR

It is required that all schools shall be maintained for at least thirty-six weeks. Owing to the fact that Bethlehem's big industry is caring for summer guests, it is difficult to begin schools until two or three weeks after surrounding schools are in session. This makes a crowded year, and it is sometimes difficult to keep the required time and close before the summer work makes its opening demands. Out of a possible 180 days of school, Bethlehem schools were in session 173½ days. Schools were not in session for 6½ days out of the 180. Two of these days were taken for Educational Institutes, two were taken at the Thanksgiving recess, one day was allowed the teachers for returning to work after the short vacation in mid-winter, one and one-half days were lost on account of bad weather. This record is very good, better than the state average. All minor holidays are disregarded by the School Board. Schools are emphatically in session for the time for which the teachers are paid.

## ENROLLMENT

In both elementary and high school we had a total enrollment of 176 pupils. During the year we had an average membership of 138.38. The difference between enrollment and membership is always large owing to the fact that so many who make Bethlehem their summer home and their business home, move away in the early fall. This difference is also enlarged by every family that moves from the district during the year. We have several families that are continually appearing and disappearing.

## TRANSPORTATION

Our biggest and most expensive problem is transportation. It is a rather unusual problem to have so few living on so many remote roads. A few children are living nearer Twin Mountain than any other school. Three remote routes include Mount Agassiz, Lewis Hill, and one other route in that direction. Three teams covering hilly routes bring fifty percent of our high school pupils. And finally scattered homes more than two miles from a school receive a small amount for looking after the conveyance of their own children. Thus it happens that we have Bethlehem children who are schooled in Littleton, others in Carroll. And it would double expense to school them anywhere else. It also is true that we are under considerable expense in bringing the high school pupils to their school, but this is a practical necessity if a high school is to be maintained.

## HEALTH

More and more we are coming to believe that good health and a systematic safeguarding against minor physical defects are among the chief assets of life. We are now having a yearly examination of all the school children by Dr. J. M. Page. Miss Borg, the

School Nurse, assists in these examinations. A careful record is made of each pupil and the nurse follows up the record urging and assisting in securing remedial work. It may be of interest to know that at the examination in May 1925, the following results were recorded:

Number of children examined	158
-----------------------------	-----

The defects found were:

Adenoids	5
Cardiac	5
Goitre	9
Bad tonsils	24
Bad teeth	44
Defective vision	8
Unvaccinated	3
Miscellaneous	3

I am sure that it will be a matter of community pride that 72 cases had secured treatment, since the preceding examination. These treatments were divided as follows:

26 treatment for teeth
42 vaccinated
4 had tonsils removed

The work of the School Nurse is so little seen by the general public, it is fitting to record that Miss Borg has made 42 school visits, and 33 follow-up visits during the year.

#### GENERAL COMPARISON AND STATISTICS

High School enrollment	31
Attendance percent	96
Tardiness per pupil	.7
No. of Teachers	3
Teacher changes during year	1
Elementary schools enrollment	145

Attendance percent	90.4
Tardiness per pupil	.37
No. of Teachers	7
Teacher changes during year	1
Attendance average for State	94.24

We are above average in high school, below in elementary.

Tardiness average in high schools for State .7

We equal it in high school, and lower it almost one-half in the grades.

Our average expense per pupil for books and supplies is much lower than the average cost in the state.

80% of our teachers for the year were College and Normal graduates.

75% of our teachers had successful teaching experience before taking up the work of this year.

#### ADMINISTRATIVE DUTIES

Regular meetings of School Board	7
Visits to schools by School Board members	27
Visits to schools by Superintendent	254
Visits by citizens	193

I think it is worth noting in this public record that the following pupils secured Honor Rolls for perfect attendance for the entire year: Howard Barden, Eleanor Hughes, Roland Hughes, Eleanor Jackson, Edward Splude, Luther Jackson, Olive Jackson, Marjorie Blandin, William Barrett, Frances Ramsey, Irene Harrigan, Patricia McKenna, Elwyn Miller, Elmond Whitcomb, Henry Cere, William Cere, and Henry Noyes.

I will also add that 48 other children secured Honor Rolls for perfect attendance for one or two terms. This is an excellent record.

## SUGGESTIONS

Our needs for the coming year are increased laboratory facilities in high school, renewed texts and reference matter in all schools, a closer cooperation between homes and schools to the end that cooperation and fact may supplant prejudice and hearsay. I will again record, without enumerating, the grateful thanks of all school officers for many remembered kindnesses, donations by public spirited citizens to the school lunch and to other school activities. I would also express my personal appreciation to all faithful teachers who give their best to the great work committed to their care. Especially would I thank the group of people, who as a selected School Board, administer to the best of their ability, the problem of making each school year a real contribution to the future citizenship of Bethlehem.

Respectfully submitted,

**ORIN M. HOLMAN,**

Supt. of Schools.

## HEADMASTER'S REPORT

---

To the Superintendent of Schools:

I herewith submit my first report as Headmaster of Bethlehem High School.

The maximum enrollment of Bethlehem High School for the year 1925-1926 has been 29. At the end of the first term the enrollment dropped to 24 which will probably be approximately the enrollment for the balance of the year.

There has been only one change in the teaching staff from last year. In the Commercial Department Miss Edna Greer replaced Miss Marion Jordan who went to South Portland High School, South Portland, Maine. The teachers are well qualified and the standard of work being done is, I believe, equal to that in many of the larger high schools of the state.

The question of attendance is at present the biggest problem which the teachers have to face. The attendance for the first term averaged 91.5% which is 4.5% below the state average. With attendance at such a low average, it is impossible to do as good work as could otherwise be done. Many pupils are being taken out or being allowed to stay out to work. Others are staying out on grounds of illness which many times is not severe enough to prevent them going to some entertainment or to the movies in the evening. Parents can help us very much by insisting on regular attendance.

Two courses are being offered this year, the Commercial and the Classical. Eighteen are enrolled in the Commercial and six in the Classical. The Classical Course is the most difficult but gives the most thorough education to a well equipped pupil who is not afraid of hard work.

Graduates last year were five in number. Robert Dexter, Alice Jackson, Kenneth Lynch, George Noyes and Ralph McCullock. Of these Robert Dexter is at the State University at Durham. Kenneth Lynch and George Noyes are at Kimball Union Academy and Ralph McCullock is at Bay Path Institute at Springfield, Mass.

School Activities last year included a base ball and a basket ball team. For the Senior Play "The Private Tutor" was presented. The school paper "The Bethlehem Star" was issued as in previous years. Both the school paper and the school play were well supported by the townspeople.

One school play has already been given; "Tommy's Wife" was presented in Jackson Hall in December before a good sized audience. The senior play will be presented as usual in May.

A basket ball team is not being maintained this year through lack of a hall in which to practice and play. It would be a great help if the school could have a hall of its own of moderate size which would be available at all times for school entertainments and athletic contests. Athletic contests are today an integral part of every high school course. They help to keep students in school and to provide a school spirit which is otherwise lacking.

Last year during the spring term from two to three hours a week were devoted to the study of fundamentals, that is, to the review of Arithmetic, Spelling, Place Geography and Handwriting. On the State tests given in the spring in Arithmetic and Spelling the results showed that the Bethlehem High averages were in almost all cases equal and usually superior to the state averages. This drill in fundamentals will be continued during the latter part of the year.

CARL E. HOWLAND.
